

SL-MATRIX™ Z-Cord®

AC Power Cord

MIT's new SL-Matrix Z-Cord is a perfect addition to your system to increase both audio and video performance, and bring you more enjoyment from your music and movies.

The SL-Matrix Z-Cord features "six-nines" pure copper construction with foil shielding for very good measurable performance.

This non-networked AC power cable exhibits a low noise floor and reduced dielectric distortions. The benefits are improved dynamic contrasts, improved low level detail, and better image localization and stability.

This SL-Matrix Z-Cord power cable can be terminated with NEMA standard plugs. 110V—250V; 20 amp.

Features and Benefits

- .999999% pure copper
- Foil Shielded • 300V, 60° shielded, 100% coverage
- 20AWG Drain Wire
- UL/CSA/FT4 listed
- 100% Outer Shield Covering
- 0.402 outer diameter

MIT® products are manufactured and sold exclusively by CVTL, Inc.
